Lamello Clamex Milling

Accurate and automated

- vertical Clamex milling in the surface
- gentle machining
- two tool exits
- System solution All-in-One

DUO FUNCTION LINE

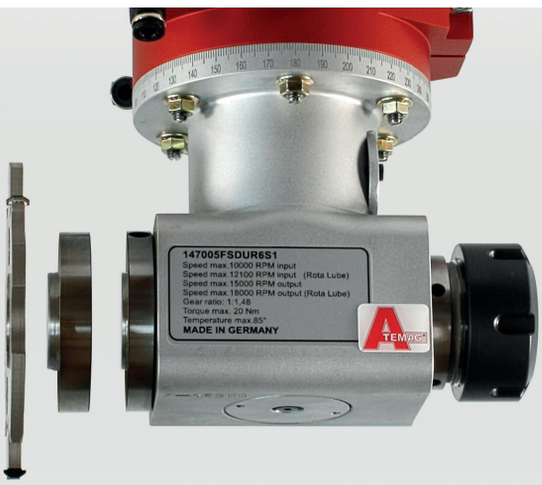
Drilling	3.000 - 9.000 min-1
Milling	up to 18.000 min-1

Aggregate & Tool

On request the DUO FUNCTION LINE can be offered as a set together with the Clamex milling tool.

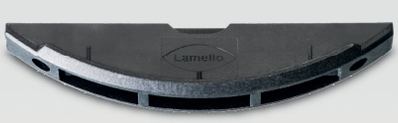
The groove for the Lamello Clamex P-Connector can also be manufactured with different aggregate types from ATEMAG. The decisive factor is the machining angle.

Take advantage of the ALL-in-ONE system solution and request your quote today - quite easy with this QR code or with the fax form on the back.



Benefit from the DUO FUNCTION LINE for Clamex milling::

- Automated Clamex connector groove milling on all common CNC machining centers and robot systems
- Increased flexibility and efficiency of the CNC machining center (also 5-axis technology)
- Vertical milling in the surface for Lamello P system



accurate MILLING - accurate CONNECTING
